

Site Has moved to Joomla 1.0.7

The website has now been upgraded from Mambo to Joomla 1.0.7

What is Joomla?

Joomla! is a Content Management System (CMS) created by the same award-winning team that brought the Mambo CMS to its current state of stardom.

What's in a name?

The name Joomla! is a phonetic spelling for the Swahili word "Jumla", which means "all together" or "as a whole". It was chosen as the entire teams behind Mambo were unanimous in their commitment to protecting the interests of the creators and community, which was the true cause for the success and acclaim earned by that project.
